“HP e3000 Migration Seminar”

Date: Tuesday 20 th June 2006	BOOK NOW	Venue: Hewlett-Packard Ltd. Wolfsen Room Worton Grange, Imperial Way READING, RG2 0TW
Time: 09:30 Registration 10:00 Seminar Starts 15:00 Seminar Ends		

Seminar Description:

“This seminar is probably the last opportunity to get a complete update on the HP e3000 market, including migration options, techniques, and technologies presented by a panel of HP e3000 migration experts from around the world.”
—Mukesh Mistry, Acucorp, Partner Manager, EMEA

The HP e3000 Migration Seminar—the only MPE seminar being held in the UK in 2006—will provide a look at a variety of migration and modernization options available to make the transition from the HP e3000 to HP Integrity, or other open systems platforms, such as UNIX, Linux, or Windows.

Peter Hindle of HP will deliver the roadmap for migrating to HP Integrity servers and deliver business critical capabilities in a standards-based environment.

Alan Yeo, Jeanette Nutsford, and Michael Marxmeier will discuss the HP e3000 migration world and tools available, and will demonstrate a live migration of an HP e3000 system including COBOL, VPLUS, IMAGE, KSAM, and QUIZ.

Michael Marxmeier will provide a short overview on the Eloquence architecture and explain the migration process using Eloquence as a TurboIMAGE replacement.

JP Fortin will present the different migration options of PowerHouse applications from MPE/iX to UNIX or Windows and from IMAGE and KSAM to C-ISAM, Oracle, Sybase, DB2, Eloquence, SQL Server or DISAM.

Jason Kent will discuss MPE emulation and migration automation tools, highlighting Speedware’s expertise in HP e3000 migrations and their proven migration project methodology.

Jawad Rabi of Acucorp will present case studies demonstrating how to modernise your COBOL applications once on open systems. It will include such options as adding a graphical user interface, implementing thin client architecture, and interoperating with other business systems written in Java and .NET.

Target Audience:

IT Directors, CIOs, Application Developers planning to migrate HP e3000 systems.

Speakers:

Peter Hindle is Marketing Manager, Business Critical Servers and Solutions, HP.

Jawad Rabi, Acucorp Senior Solutions Architect, is a COBOL migration and modernization expert.

Alan Yeo is Managing Director of Affirm Ltd. and CEO of ScreenJet Ltd.

Jeanette Nutsford has 30 years experience teaching and programming in HP COBOL.

Michael Marxmeier is the creator of Eloquence and the head of the Eloquence development team.

JP Fortin, Cognos Solution Architect, has many years of PowerHouse and Axiant experience.

Jason Kent of Open Seas, an expert in the HP e3000 industry, first completed an MPE migration in 1995.

Agenda:

- 09:30 Registration
- 09:55 Welcome
- 10:00 HP Integrity Servers – Helping You Achieve Your IT Imperatives
- 10:30 Migration Ingredients (HP e3000 Migration World and Available Tools)
